VINÍCIUS GABRIEL DE SOUZA

Software Developer

PERSONAL DESCRIPTION

As a software developer, I have experience in both backend and frontend, covering different technologies and frameworks. I have solid knowledge in React, Angular and Vue.js, applied in the development of attractive, responsive and well-structured interfaces. In the backend, I highlight my experience in C#, implementing services from the API to the database connection efficiently, with Entity Framework and Dapper, using the available resources in the best way, with high scalability. I am driven by the constant search for improvement and I see each new challenge as an opportunity for learning and professional growth.

KNOWLEDGE

- C# (.NET Framework, .NET Core 3.1, .NET 5, and .NET 6+);
- Javascript Frameworks (Vue.js, React, and Angular);
- Code versioning (Git);
- Databases (SqlServer and Postgre);
- HTML, CSS (SASS), Javascript (JQuery), and Bootstrap;
- Web application development with knowledge in both frontend and backend.

PROFESSIONAL HISTORY

BACKEND DEVELOPER

Benner Sistemas, Mar, 2023 - Now (Hybrid)

I am part of Benner's ERP team, responsible for developing new implementations and fixing bugs according to customer requests. I also implement solutions aimed at transitioning the old Delphi desktop project to the web-based .NET system. In terms of technologies, I work with C#/.NET development and utilize internal technologies such as the BEF (Business Entity Framework), CodeGenerator for synchronizing the database and code, WES (Web Enterprise Suite) for frontend no-code development, and Benner Builder for database management. Additionally, I occasionally develop scripts using IronPython.

FULLSTACK DEVELOPER

Pilar Sistemas, Nov, 2021 - Mar, 2023 (Hybrid)

Responsible for the development and maintenance of web applications, APIs, and desktop applications in the accounting field. I have primarily worked with C# on the back-end, using .NET Framework 4.7, .NET Core 3.1, and predominantly, .NET 6. I have experience in integrating with SQL Server and PostgreSQL databases, applying best practices with the Entity Framework.
On the front-end, I excel in using Vue.js to develop responsive and intuitive interfaces. Additionally, I have participated in a specific project utilizing AngularJS. I have contributed to the implementation of efficient and scalable solutions, ensuring the quality and functionality of the systems, and following agile methodologies such as Scrum and Kanban.

ACADEMIC RECORD

FURB - BLUMENAU REGIONAL UNIVERSITY FOUNDATION

Fev, 2023 - Jun, 2027 - Bachelor's degree in Computer Science - On-Site

Curriculum: in Portuguese

SENAI/ACATE

Out, 2021 - Ago, 2022 - FullStack Development - Remote

Topics covered in the course: React, C#/NET Core (APIs, Entity Framework), Design Patterns, Clean Code, Introduction to Cloud, GraphQL, Messaging, Authentication, TDD (Test-Driven Development), Containers, and Docker.

SKILLS AND COMPETENCES

- English B2 (CEFR)
- Organization
- Proactivity
- Ethic
- Resilience
- Empathy
